is the exclusive Colorado quarrier, fabricator and distributor of Telluride Gold™ & Heritage Series natural thin stone veneers. All materials are available in full stone veneer as well. Telluride Stone offers a variety of landscaping products (such as boulders, flagstone, and strip stone), custom stonework for hearths, mantels, corbels, lintels, etc.

The Telluride Stone Company is the exclusive U.S. importer of ROMEX®, a sand-based grout material and gravel hardener that has been used in Europe for over 20 years. ROMEX® is an eco-friendly, easy to use product that is great for all climates, especially those with extreme freeze/thaw cycles and can be used for projects ranging from small residential to large commercial installations.

go natural
We are pleased to present the Building Stone Institute’s 2009-2010 Buyers’ Guide, a valuable resource that connects nearly 15,000 architects and design professionals who specify, use and purchase natural stone to the suppliers they want to do business with. Since 1919, the BSI has promoted the value and benefits of natural stone on behalf of quarries, fabricators, dealers, importers, exporters, carvers, restorers, designers and installers, and this year’s Buyers’ Guide is just one of the tools we use to do so.

Inside, we feature complete contact information for key professionals in the stone industry as well as a handy section that lists each company by its category of business so that you easily and quickly can find the suppliers and products you need.

As a new feature, this Buyers’ Guide also will be available online at http://bsi.officialbuyersguide.net/ to help give those in the stone industry access to products, supplies and services – all with a few clicks of the mouse.

We hope you’ll find both versions of the Buyers’ Guide to be useful throughout the year.
Discover one of Colorado’s iconic natural stones; elegant and enduring quartzitic Lyons Sandstone.

Named one of the most innovative green building systems by Architectural Record, we have developed a patented process for crafting exceptional natural stonework delivered pre-cut, hand chiseled and ready to install according to architect’s design plan. This revolutionary system gives architects unprecedented control over stonework design, eliminates dusty on-site cutting, and reduces installation time by up to 90%. We work with a full range of natural stone materials and ship throughout the continental United States.

Product Type:  
Sandstone |

The most exquisite granite in the world was created millions of years ago in North America. Rich, distinctive Deep Red Granite, quarried exclusively by Anderson Bros. & Johnson, is the only granite of its kind on this continent...and possesses a beauty that's equally rare.

This exceptional stone exhibits superior carvability, strength and durability. And because we're a U.S. supplier, availability is guaranteed, delivery is fast and service is focused on results.

Make your next project a world-class beauty – use Anderson Bros. & Johnson Deep Red Granite. To see samples of this outstanding stone or for the name of your nearest distributor, call 1-800-826-1581.

Owner, quarrier and distributor of Rundle Rock: a fine grained sandstone/siltstone exclusive to the Rocky Mountains of Alberta, Canada. Excellent stone for a variety of projects such as thin veneers from 1/2 - 1 flat natural beddng plane surfaces; a durable stone resistant to physical and chemical abrasion. A variety of colors (earthy brown tones, charcoal black, gray/blue). Fossil imprints and sedimentary structures. All stones are hand-sorted, split, shaped and palletized to maintain consistent quality in style size and colour. Quarry is a family-run business operating since 1954.
Product Type: Specialty Building Stone

Quarrier and Fabricator of Mexican Travertine.
JOIN THE BSI TODAY!

It’s easy to take advantage of the benefits of BSI Membership. Just complete the attached membership application form on the other side and include your annual fee. Your membership fees go to strengthen the natural stone industry today and into the future.

Annual fees for BSI Membership

<table>
<thead>
<tr>
<th>Membership Type</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stone Industry Firm Membership</td>
<td>$1,000.00</td>
</tr>
<tr>
<td>Professional Membership</td>
<td>$200.00</td>
</tr>
</tbody>
</table>

Membership is available for those responsible companies and individuals dealing with the quarrying, fabrication, sale, installation, maintenance, and restoration of natural stone. Professional membership is available to registered architects and engineers.

How to Join

MAIL
Simply complete this application form and mail with your payment to:

Building Stone Institute
5 Riverside Drive, P. O. Box 419
Chestertown, NY 12817

FAX
You may fax your application form to the BSI offices at (518) 803-4338

PHONE
Your application may be phoned in by calling the BSI offices at (866) 786-6313

BSI CODE OF ETHICS

- We, members of Building Stone Institute, pledge ourselves to maintain the highest possible standards of business and craftsmanship; to give freely of our time to architects, engineers, builders, contractors, and the public whenever information and help are needed concerning the use, availability, installation, cost, or delivery of natural stone.

- Stone is a heritage freely given, to be freely used. It is the land itself, waiting for the ingenuity and vision of man to give it beauty and meaning.

- Stone cannot be manufactured; it cannot be honestly imitated. The permanence, beauty, and economy which are characteristic of stone can be found only in the natural product.

Building Stone Institute is a nonprofit, tax-exempt trade association. Every member and their business interests are important. Every member has an equal voice. Recognizing that many of the members are competitors, they are nonetheless, expected to adhere to a Code of Ethics and to work together to improve our industry.

One of the main goals of BSI is educational—to increase consumer demand for all types of natural stone and to service its member firms. BSI has a Constitution and By-Laws, a Code of Ethics, and is governed by an elected board of 15 persons from the natural stone industry, with term limits, who serve voluntarily without compensation of any type.

Take a moment to look at the many valuable benefits that becoming a member of BSI has to offer. Choosing to join will not only benefit your business but also help to build a stronger voice for the natural stone industry.

*NOTE: These samples show the general appearance of the stone. Color, texture, dimension, and other physical properties will vary in all natural stone. Stone is a product of nature; testing to determine specific physical qualities should be performed for its suitability for each project. Each piece is unique and can never be duplicated.*
For over 120 years, we’ve believed actions speak louder than words.

120 years of experience and the best stone cutting tools in the industry — A lifetime in the making.

WF Meyers — Expertise, troubleshooting and customer support.
