Efficiency: The Key to Growth for Fabricators

Date: Wednesday, September 26, 2018

Time: 6:00 to 8:00 pm

Speaker: Ed Young We Reduce Chaos

Location: European Granite & Marble
675 Canton Street
Norwood, MA 02062

In a growing economy, job growth frequently outstrips the supply of good labor. While you may think your only choice is to “steal” good help and pay a lot more for it, why not take a minute and look at how you can get more value from the staff you already have?

In this session, you will learn:

- The difference between value-added and non-value-added activities.
- How fabrication shops can eliminate activities that produce waste.
- The impact that increased efficiency can have on your bottom line.
- Examples of fabrication efficacies produced in other industries.

Registration Fees:

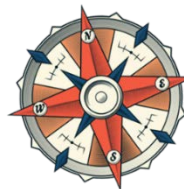

\$25 Chapter Participant; \$50 Non-Chapter Participant; Complimentary for Architects and Designers
