

Award of *Merit*

PROJECT:

Proctor Marble Arch Bridge
Proctor, Vermont USA

MIA MEMBER COMPANY:

Granite Importers, Inc.
Barre, Vermont
Stone Supplier & Fabricator

The marble deck on the distinctive Marble Arch Bridge had developed a patchwork look due to many years of wear and spot replacement. Town officials wanted a crisp, clean look to match the original bridge. Highland Danby was chosen as the closest match. Full-size templates were taken from existing stones and used in the fabrication process to ensure an exact match. A total of 528 pieces were produced, totaling 1,457 sq. ft. of marble.

JUDGES' COMMENTS:

“Recognizes the project owner’s commitment to preservation of the original stonework.”

OTHER PROJECT TEAM MEMBERS:

Architect/Designer: State of Vermont, Agency of Transportation • General Contractor: The Belden Company
Stone Installer: Angelo Todesco, Inc.
