FILE REQUIREMENTS

- 1. Jury Review PDF*** Assemble a PDF of the following items in the order they appear below. **Maximum size is 10MB. All pages must be formatted to 8.5" x 11".**
 - **Project Description Must Include:** Project name and location, client requirements and how they were met, challenges regarding procurement, extraction, fabrication, or installation, and description of any complex stone elements. **500 word limit.**
 - **Project Photos:** Carefully select your photos for overall quality of composition and ability to convey excellence of your work. Include an overall view of the project and close up views of special details.
 - 12 completed project photos
 - 6 fabrication/installation photos (very important in telling the story)
 - For renovation or restoration, at least two of the photographs should be of the project prior to work
 - **Site Plan and Line Drawings (optional):** Illustrate the scope of the project with no identifying marks of submitting company or design firms. Show any complex stone fabrication or installation details with no identifying mark of submitting company or design firms. Must be formatted to 8.5" x 11". **Limit to 3.**
- 2. Project Participants List** Provide a separate Word document containing the name, address, phone, and email of the design firm, project client, stone consultants (if any), stone installers, stone suppliers, stone quarry (if known), and any other **stone related companies**. Also include a list of the specific types of natural stone used.
- 3. Photo Release Form(s)**
- 4. Project Photos** All project photos included in your PDF must be submitted separately as 300dpi (high resolution) JPGs. We suggest you use a file sharing program such as Dropbox, WeTransfer, etc.
- 5. Additional Project Descriptions** Provide a separate Word document with both 150- and 300-word project descriptions. These will be used in promotional materials for those projects receiving a Tucker Design Award.
